Need to increase awareness but have a limited budget?

Budget constraints are the #1 concern we hear from our customers. Fortunately, we can help!

Introducing "Company Stores"

Mini-websites called "Company Stores" offer the ability for organizations to select high quality products and apparel that can be ordered by the single piece. These items are printed as ordered so there is no inventory or work on your end. This is different from the other items in this catalog which are ordered in bulk to distribute at events. With a company store, the end user purchases the items directly so they can show their support for your organization!

Let us make you a Company Store - It's free!

How does it work? You select **24 items** from a broad range of items and choose what you want printed or embroidered on it. This is especially useful for apparel so you don't have to inventory all the sizes. People would then go online to order and pay for their items themselves directly through the website. Each item will then be prepared and shipped directly to them. You don't have to do or pay anything!

NO Setup Fees - NO Monthly Fees - NO Credit Card Transaction Fees

From online store design to product delivery including on-demand fabrication and customer support, we do it all so you don't have to. Check out this sample store so you can get an idea of how it works: astranis.merchwebstore.com

Swag is proven to build brand awareness.

When staff, volunteers or supporters purchase branded merchandise, it instills a sense of belonging and unity with the organization. It symbolizes that they are part of a larger community and share a common identity. When someone wears your branded apparel or carries a bag or water bottle out in public, your brand is being exposed to a broader audience you wouldn't reach otherwise. It also provides an opening for a conversation about what your group does and why it's important!

Want to learn more? Give us a call at 1-800-343-5978

Let us show you how a company store can work for you!

DrinkSafe Technologies® Date-Rape Test Cards Detects GHB and Ketamine

Drink Safe is used around the world and is the trusted date-rape prevention kit for individuals, universities, concerned parents, bartenders & more!

DR5

One test kit with two tests per strip. Comes in an individually wrapped package with your imprint in the center.

Here's how

it's used:

Each test kit has 2 tests (for testing 2 separate drinks), one on each side of the card.

Perform the test in a well-lit area. It takes the activation of both test spots in one test character to test the beverage in question in accordance with this product.

Make sure both test spots are dry, and free of condensation from the drink container.

Place drops of the beverage to be tested onto each spot using a straw or your finger.

Rub gently. Do not mix the chemicals from each spot together. They should remain separated for best results.

Wait until dry. The test can take a few minutes to dry and get a result, be patient.

If either spot turns to a DARKER BLUE COLOR, one or more drugs which could be used in drug-facilitated crimes may have been detected.

25% of people whose drinks have been spiked will be sexually assaulted.

Be Smart. Be Safe. Drink Safe.

DR4

Coaster with two tests per coaster. Full color imprint above tests on front.

Chelsea LGBTQ+ Coalition

Here's how I used promotional products to promote my community's LGBTQ+ Flag Raising. We hosted an outreach booth at a Night Market before our flag raising. We sold rainbow flags with our coalition's logo and gave away temporary tattoos. We had our banner up in the booth and then used it at the flag raising. It was wonderful seeing all the support from our community at both events and people loved the flags and tattoos!
